MEMORANDUM FOR: CHAIRMAN, SECOM

FROM: [REDACTED]  
Chairman, SAES

STAT

SUBJECT: Unauthorized Disclosure Video Tape

Attached for your review is an SAES-proposed scope of work (SOW) for developing a video tape addressing the "unauthorized disclosure" issue and the damage done to the national security by these leaks of classified information.

Additionally, attached are SAES comments on administrative matters which might come into play during the course of this effort.

We believe this is an extremely important undertaking and deserving of our immediate attention. However, the making of a VT is virgin ground for many of us, subject to time, manpower, and budget constraints, and, as a first-time effort, on a difficult subject, necessitates that we proceed at a pace which will insure a well-thought-out, quality product.

We would appreciate your critical comments on this effort.

[REDACTED]  
Chairman, SAES
